APM-BC LAUNCHES NEW WEBSITE TO SUPPORT COMMUNICATION ABOUT KITIMAT WORKS MODERNIZATION

Do you want more information about the modernization of Kitimat Works? It's only one 'click away'. On November 27, 2006, add this website address to your browser and save it under favourites:
<http://www.kitimatworksmodernization.com/>.

Alcan Primary Metal – BCs Kitimat Works Modernization Team is excited to announce its new website, dedicated exclusively to communicating information about the Kitimat Works Modernization Project to employees and the 'community-at-large'. The website is 'a work in progress – under construction', as we continually update it with accurate, pertinent information, as it becomes available.

The first phase will be launched on November 27 and features information about:

- Alcan in Kitimat
- Director's Message
- Media Center information
- Contact Us (a feedback form)
- Supplier Opportunities
 - o Contractors, service providers and material / equipment suppliers can register their interest with us.

The anticipated launch date of the second phase is January 15, 2007, and will feature:

- Employment Opportunities
 - o Applicants can apply for employment and submit a resume.
- Project Overview
- Engineering
- Construction Updates
- Community and Sustainability
- Supplier Opportunities (refinements)

"We are pleased to launch this new communication tool for you – our employees and for the community-at-large to get information about the project," said Paul Henning, Managing Director of Kitimat Modernization and Operations. "Our employees have a vested interest in reviewing this website periodically. It's also an opportunity for two-way communication, as we invite you to provide comments, suggestions and feedback in the Contact Us section!"
